DETAILED ACTION

Drawings

1. The replacement drawings were received on 2/1/06. These drawings are approved.

Claim Rejections - 35 USC § 102/103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-3, 5-7 and 10 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Jung 2002/0167105. Applicant's arguments have been considered but are not deemed persuasive for the reasons of record. Applicant argues that the reference discloses a range of temperatures for processing their product and that the instant claims are directed to a specific temperature within this known range that show unexpected results of increased heat resistance and improved insulating performance. However, applicant's alleged showing of unexpected results is not supported by a showing of facts. A proper showing of unexpected results requires that comparisons be made between the instantly claimed product and products made with a processing temperature slightly above and below the instantly claimed temperature as well as at temperatures more than slightly above and below the instantly claimed range.
4. Claims 8 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jung 2002/0167105. Applicant's arguments have been considered but are not deemed

persuasive for the reasons of record and for the same reasons as set forth above in paragraph 3.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
